The census reports for absent families.

The census Bureau makes special provision for enumeration of families planning to be away from home during month of April.

The Fifteenth Decennial Census of the United States will be taken during the month of April. The enumeration will be made by a force of about 10,000 enumerators who will go from house to house and secure the information required for the census. Every person is to be enumerated, so far as possible, at his "usual place of abode."

The place where he usually lives, where individual members of a family are away from home at the time the census is taken they will be reported by the enumerator by other members of the family.

For cases where it is known in advance that the whole family will be away from home at the time the census is taken, special provision has been made by the Director of the Census. A copy of the absent family schedule may be obtained upon application to Fred Walton of Auburn, who is the Census supervisor for this district, which is to be filled out by some responsible member of the family and transmitted to the local supervisor.

Families planning to be away during the month of April, leaving the home closed or with no one in charge who is qualified to give the census information to the enumerator, are urged to obtain one of these schedules at once and to fill it out and send it to Mr. Walton at the earliest possible date. Or if the house is left in charge of a servant who will be sure to be at home when the enumerator calls, the schedule may be left with such servant for delivery to the enumerator.

The information furnished on this schedule will be treated as confidential and will not be used only for the tabulation of statistics which will not reveal any information with regard to individuals or families.

When a person gets downtown late in the morning it is easy to obey the "no parking" signs. The spaces around them are all occupied.

We don't know which looks the worse: a pink knit jacket on a building or a paper cup above the average successful American face.

## DOUGHBOY OF U. S. ARMY IS NOW MAN OF MANY DUTIES

Changes Made in Arms of the Infantryman, War Department Reveals.

Washington.—Private Terrence Mulvaney was a lance corporal once and an infantryman always, as Kipling fans readily will recall. He and his fellow doughboys the world over would be chagrined and saddened were they introduced to the modern infantryman as visualized by the United States War Department.

An infantryman in these experimental, post-war days is as likely to yank a lanyard or tool a caterpillar truck over plowed ground as he is to muzzle his chin against his rifle butt or brandish a bayonet. What the infantryman has come to has been revealed by the War Department.

If experiments are successful, the infantryman of the next war, if any, will be a composite machine gunner, artilleryman, automatic rifleman, and whatnot with here and there an individual possessing the familiar rifle, revolver, and bayonet.

After experiments at Fort Benning, Ga., Secretary of War Hurley has authorized organization of the Twenty-ninth Infantry as an experimental battalion for further investigation of new arms and tactics. The purpose is "to give the maximum striking power and capacity for sustained effort without disproportionate loss of mobility or increase of vulnerability."

The war strength infantry battalion to be experimented with will consist of battalion headquarters, battalion headquarters company, three rifle companies, two caliber .30 machine gun companies.

The department said changes in existing organization had been made as follows:

Two instead of one automatic rifle per squad in rifle companies.

Addition of one machine gun platoon, two .37 mm. cannon and two .75 mm. mortars to the headquarters company.

The effect of these changes is to increase battalion strength by 325 to 1,175 men and to increase fire power by improvement of weapons. Mean-time experiments continue on a semi-automatic rifle, to supplant the rifle used during the World war.

## Woman's Poetry Tells How She Killed Mate

Ashland, Miss.—Her poetic confession to the murder of her husband, a matter of record, Mrs. Marion Drew, twenty-five, was held in jail here pending a sentence that will send her to prison to take the place of her aged father.

Mrs. Drew wrote Gov. Theo. G. Bilho in verse the story of how she killed her husband, then prompted her eight-year-old daughter to swear falsely to send the child's grandfather, G. T. Hunter, to prison.

Part of the poem follows: Down in a lonely graveyard, Where the flowers bloom and fade, There lies my darling, sleeping, In a cold and silent grave.

He died not broken-hearted, Nor by a disease he fell, But in an instant passed, From the ones he loved so well.

The poem contains nearly forty verses and recounts in detail how her husband, Marion Drew, was driven to murder by false gossip he heard about her, and how he threatened her life.

## French Propose Mutual Betting on Auto Races

Paris.—The French government is considering the extension of the mutual betting system now in operation on Longchamps, Autoull and other horse racing courses under government control, to automobile racing.

At present there is no control over motor race betting, with the result that bookmakers often disappear when their losses are heavy, and the government fails to collect its contribution from any of the bets.

Since mechanics have replaced horses in general life, the government feels there is just as much interest in promoting good machinery as in developing good horseflesh, so a portion of the takings from the motor mutual betting will be used to establish prizes for international races. For the present the mutual system will not be applied to foot races.

## British Women Granted More Divorce Rights

London, England.—New divorce laws now in effect in England tend to temper justice with mercy. A modern spirit of broad thinking has resulted in the new code.

Women are now placed on the same level with men in regards to facilities for pursuing divorce petitions. Women up to about seven years ago, had to order to secure their freedom, had to establish against men both unfaithfulness and cruelty or desertion.

This code of statutes had the effect on the authorities that legal cruelty was not established until an adverse effect on the wife's physical health and well-being was shown.

## Brothers Arrest Each Other to Beat Drugs

Oakland, Calif.—In order to rid themselves of the narcotic habit, which they had had for many years, Edward and William Vincent, brothers, each swore out a complaint against the other, and both are in adjacent beds in the psychopathic ward of a local hospital to take the cure.

## AFTER THE STORM

Beautiful trees of a summer now past are all bent and twisted with winter's cold blast. They bear their cold burden with courage supreme, Far better than we bear our burdens, I wean.

Ice covered, like crystals, they gleam in the sun, Though bended and broken to rise they've begun.

They'll come forth in splendor—will rise from their fall. And soon in the springtime will gladden us all.

On mountains, in valley each laden tree sings Of a courage undaunted, mid the snow winter brings.

Soon the sunshine of spring will to them strength impart As they stand in their glory, a balm to each heart.

Bethel, Maine, Dec. 22nd, 1929. R. M. F.

## Graphic Outlines of History

## BROADWAY, N. Y., IN 1839

Broadway had as much importance as a thoroughfare in 1839 as it has now. All the business of New York City was carried on in that street. The above picture shows the means of transportation—the horse-car. In the background is St. Paul's church, which still stands in its original site.

Trade your old tires for safe new Goodyear All-Weathers or Double Eagles.

Keep in mind the strongest proof of superiority any tire enjoys: MORE PEOPLE and it's millions more people today! RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND. True here as everywhere.

Keep in mind the outstanding reason why Goodyear Tires offer you the most for your money: GOODYEAR BUILDS NEARLY ONE-THIRD OF ALL TIRES SOLD IN AMERICA—ALMOST TWICE AS MANY AS ITS NEAREST FOLLOWER.

Keep in mind that we actually prove the superiority in Goodyear tires before you buy: MORE TRACTION IN THE TREAD; MORE LIFE AND ENDURANCE IN THE PATENTED SUPER-TWIST CORD CARCASS.

Keep in mind that we give you sound, experienced advice in making a proper selection from among the many Goodyear types—and that we back up your tires with a courteous, watchful, year round service which enables you to enjoy fully the extra miles of safe, trouble-free driving built into Goodyear Tires and Tubes.

Keep these facts in mind AND DON'T BE TALKED OUT OF THE GREATEST VALUES IN TOWN!
